8.5 Maximizing the Allocation of cards and the Athlete “Hold List”

- 8.5.1 AC will endeavour to nominate sufficient athletes to utilise the entire Able-bodied Quota and Para Quota offered by SC.
- 8.5.2 There is an appeals process that can change card levels or who is allocated a Card, this can change the total number of athletes who we can Card. Therefore, to account for this effect, the Selectors will place the last few athletes who could receive a Card on a Hold List. These athletes must still complete the required SC paperwork.
- 8.5.3 The Selectors will ensure that there is sufficient Card quota (dollar value) to Card the athletes on the Hold List subject to the SC’s approval process and/or appeals processes. It is possible that, due to the mechanics of the SC’s approval process or the appeals process, some athletes on the Hold List will not receive a card despite completing all of the requested paperwork. AC will inform athletes on the Hold List whether or not they will receive a card as soon as practical.
- 8.5.4 The number of athletes on the Hold List will vary depending on circumstances and advice from SC. However the number will typically be around the equivalent of five Senior Cards per program (e.g. counting Para and able-bodied separately).
- 8.5.5 For the avoidance of doubt, being on the Hold List does not guarantee receiving a card.
